About me

Developer since 2019, experient in web and mobile development, covering front-end and back-end aspects. Also experienced in neural networks, audio processing, game development and UI/UX principles.

Education

Computer Science

UERN 📅 2019 - 2024 📍 Natal - RN

Grade Avg
8.35 / 10

- Media director of student council
- Event organizer and Speaker

Professional Experience

Colab Project

📅 2019 - 2023 📍 Natal - RN

PotiQuality

- Developed a mobile application that handled sending photos and receiving cloud processed data
- Created a RESTful API that allowed cloud processing and connection with the application
- Implemented a Responsive Design that allowed the application to be used on various devices with the same user experience

Internship

📅 2022 - 2023 📍 Natal - RN

SETHAS

- Worked on a team of around 6 developers
- Developed and maintained the company mobile and web apps
- Utilized React Native and React for development
- Designed new version of the mobile app in Figma using UI/UX Theories and studies for a better implementation

Junior Programmer

📅 2023 - present 📍 Natal - RN

GetInfo

- Rebuilding web site using ReactJS
- Developing React components that improve scalability and performance of the website
- Using UI/UX theories for better user experience
- Consuming APIs endpoints (GET,POST,PUT,DELETE)
- Clean and reusable Code

Skills

Typescript ★ **Javascript** ★ **React** ★

C++ ★ **React Native** ★ **NestJS**

ExpressJS **Game Dev** **Tensorflow** ★

Audio Processing **Python** ★ **MongoDB**

SQL **Figma** ★ **Image/Video editing** ★

WebSocket

Side Projects

UERN - The Game 📅 2020 📍 Natal - RN

- Developed with native Direct2D (DirectX11) and C++
- Created a simple game engine from scratch for this
- Teachers where portraited in the game and they kind of loved it

SOHTA Engine

📅 2020 📍 Natal - RN

Game engine

- Developed with native Direct3D (DirectX11) and C++
- Teachers where portraited in the game and they kind of loved it

Lil Notes

📅 2023 📍 Natal - RN

Web app in ReactJs that shows notes saved in local database

- Used MySQL as database

EconoMe

📅 2024 📍 Natal - RN | Aracaju - SE

Mobile app to save expenses made with React Native

- Uses Realm (MongoDB) as database
- Has smooth animations and clean UI

Margarida's Shop

📅 2022 📍 Aracaju - SE

A Full Stack developed clothing store website with a simple and clean design

AutoTab

📅 2023 - 2024 📍 Natal - RN

App to generate guitar tabs from audio

- ReactJS for the front-end web app and tab drawing
- Neural Networks to identify notes and chords
- Audio processing techniques
- Path finding algorithms to find finger positions for notes sequences

ATHOS Components

📅 2024 - 2025 📍 Aracaju - SE

A npm library with some react components that i use in my projects
